

The Landfill Facility at Klinkerstene Waste Park is a vital component of our waste management infrastructure, catering to the responsible disposal needs of a variety of waste types.

Our facility adheres to stringent regulations to ensure environmentally conscious waste management. Klinkerstene Waste Park is committed to long-term, sustainable waste and environmental management. The facility possesses a robust capacity to effectively manage and treat diverse waste types in strict accordance with legislative and local requirements. Our capabilities targeted contaminant immobilisation through pre-treatment.

WASTEHANDLING

Type 0 - 1

Accepted for pre-treatment and then disposal

Type 2 - 4 waste

Accepted for disposal

FACILITY BENEFITS

- Onsite laboratory to verify incoming waste types
- Safe and compliant disposal of various waste types
- Advanced engineering to control emissions and prevent contamination
- Contribution to environmental protection and sustainability goals
- Provision of all requisite documentation

Our facilities comply with disposal prohibitions and restrictions, ensuring responsible waste management practices and environmental protection.

COST-EFFECTIVE. EFFICIENT. SUSTAINABLE.

Interwaste is a trusted leader in waste management, dedicated to ethical practices and environmental stewardship. With a focus on innovation and sustainability, we provide integrated solutions tailored to meet the diverse needs of industries, ensuring responsible waste management and environmental protection.
